FenceScape®

Every Fence is a Good Neighbor Fence

A fence is the most visible extension of a home. And with FenceScape you don't have to sacrifice beauty to get quality. You get the best of both worlds. FenceScape provides the look and feel of wood with the low-maintenance benefits you expect from composites. There's no painting, staining or sealing, and FenceScape won't split, rot, warp, crack, splinter or suffer termite damage. Available in a rich, warm, beautiful Mountain Cedar color, FenceScape composite fencing will look new, year after year.

Named #1 new product by Fencepost Magazine, the official publication of the American Fence Association.

FenceScape Components

Fence Boards

- Straight Cut
  - 0.5" x 5.5" x 6'
  - 0.5" x 5.5" x 8'

FenceScape®

Ignite Your Imagination

A fence is the most visible extension of a home. FenceScape composite fencing is beautiful and provides the same design versatility and workability as traditional wood, allowing you to express your taste and create a distinct design. FenceScape components are sold separately, allowing you to customize any outdoor living space and create styles such as privacy, picket, shadowbox and other unique installations. Custom gates can also be built to finish off an entryway to match the rest of your fence.

Our unique manufacturing process allows us to produce wood patterns that are consistent in quality, but vary slightly in appearance. This ensures that no two fences are exactly alike, and it minimizes repetitive patterns.

Developed by TimberTech, the company that brought you award-winning, high-quality innovations in decking, railing and lighting solutions, FenceScape is backed by a name you can trust. So add privacy and safety to your yard, relax around the pool, grill out with family and friends, or beautify your space with FenceScape composite fencing.

- Color: Mountain Cedar
- No painting, staining or sealing required
- Spans 8' center-to-center of posts
- 25-year limited warranty for residential applications

Sustainable Living

Current State of Sustainability: Much of TimberTech's current sustainability efforts focus on our strong commitment to the people of our organization and the community in which we reside. Below is a list of current sustainability achievements.

Clean Manufacturing:

- Waste Management:
  - 99% of waste material created during the manufacturing process is reclaimed.
  - 332 tons of material is recycled annually; this is the equivalent of 161 average households' annual trash.
  - TimberTech has reduced trash sent to landfills by 90%.
- Energy Efficiency:
  - Shipping products by rail saves 120,000 gallons of fuel per year, which is the equivalent of taking 206 passenger cars off the road annually.
  - Since 2009, TimberTech has reduced electrical consumption by 2,300,000 KWH per year, which is equivalent to powering 164 average households annually.
- Water Efficiency:
  - TimberTech saves 140,000 gallons of water each day in our manufacturing process by using a closed looped water system, which is equivalent to providing a day's water for 2,021 average households.

Product Development:

- TimberTech decking and railing is manufactured with an average of 51% recycled content*.
- TimberTech uses 107 million pounds of post industrial wood flour and post consumer plastic annually to make TimberTech products.
- All TimberTech products are urea formaldehyde-free.
- Our product cartons are made with 43% recycled material fibers, which meet SFI sourcing requirements and are 100% recyclable.
- TimberTech is a participating member of the International Code Council, U.S. Green Building Council, ASTM International and the Composite Lumber Manufacturers Association.

Community Involvement:

- TimberTech supports the local community by contributing both time and money to charitable organizations. We strive to be a leader in charitable and community involvement and currently donate to over 30 charitable organizations annually.
- TimberTech is also the recipient of the United Way Community Visionary Award and is the #1 contributor to the United Way in Clinton County, OH.
- Currently, TimberTech has 12 employees actively serving as board members with local charitable organizations.

*Based on the ISO 1400 Standards

Impeccable style, unlimited design possibilities
and low maintenance are what make
TimberTech products such a rewarding investment.
