Why ModernView Decking®...

- ★ ModernView® composite decking is affordable and requires no special tools or pre-drilling for easy installation.
- ★ 25 Year Limited Warranty Protects against splitting, rotting and decay.
- ★ Constructed with HDPE, LPDE & LPE enables our product to be placed in ground, on ground or in the water.
- ★ New total encapsulation technology will not promote mold or mildew & makes our product easier to clean.
- ★ Low environmental impact, ModernView Decking is manufactured with 95% recycled content and is LEED certified.

Advanced Technology

Featuring Advanced Environmental Recycling Technologies' (A.E.R.T) total encapsulation technology, ModernView Decking® boards are made with smaller wood fibers for improved appearance and durability, and a new embossing technique to minimize build-up of dirt and debris while simulating the look of wood boards.

Easy step-by-step installation Instructions available at www.ModernViewDecking.com

Modernview decking is manufactured by Advanced Environmental Recycling Technologies and covered under ESR-2388. As with any building project, use proper eye and ear protection and follow local building codes. Modernview Decking is for decking and accessories only. It is not to be used as structural material.

Offering design flexibility, ModernView Decking® allows contractors to install the deck boards in applications where they are on or in the ground or under water, without voiding the warranty. Adding to its versatility, ModernView Decking is reversible and available in four, vibrant colors.
